

# First Aid Policy

## Help for non-English speakers

If you need help understanding the information in this policy, please contact 9366 1381 or [Stevensville.ps@education.vic.gov.au](mailto:Stevensville.ps@education.vic.gov.au)

## PURPOSE

To ensure the school community understands our school's approach to first aid for students.

## SCOPE

First aid for anaphylaxis and asthma is provided for in our school's:

- *Anaphylaxis Policy*
- *Asthma Policy* (As outlined by Asthma Victoria)

This policy does not include information on first aid requirements for COVID-19. Our school follows the Department's operational guidance for first aid management relating to COVID-19.

## POLICY

From time-to-time Stevensville Primary School staff might need to administer first aid to students at school or during school activities.

Parents/carers should be aware that the goal of first aid is not to diagnose or treat a condition.

## Staffing

The principal will ensure that Stevensville Primary School has sufficient staff with the appropriate levels of first aid training to meet the first aid needs of the school community.

Our school's first aid officers are listed in our Emergency Management Plan (EMP). Our EMP includes the expiry dates of the training. This list is reviewed on an annual basis as part of the annual review of our Emergency Management Plan.

## First aid kits

Stevensville Primary School will maintain:

- A major first aid kit will be stored in the First Aid room in Building A
- 4 portable first aid kit/s which may be used for excursions & camps.
- Each Teacher has a portable yard duty kit stored in their classroom

Our OHS representatives are responsible for maintaining all first aid kits.

## Care for ill students

Students who are unwell should not attend school.

If a student becomes unwell during the school day, they may be directed to the sick bay and monitored by staff. Depending on the nature of their symptoms, staff may contact parents/carers or an emergency contact person to ask them to collect the student.

## First aid management

If there is a situation or incident which occurs at school or a school activity which requires first aid to be administered to a student:

- Staff who have been trained in first aid will administer first aid in accordance with their training. In an emergency situation, other staff may assist in the administration of first aid within their level of competence.

- In a medical emergency, staff may take emergency action and do not need to obtain parent/carer consent to do so. Staff may contact Triple Zero "000" for emergency medical services at any time.
- Staff may also contact NURSE-ON-CALL (on 1300 60 60 24) in an emergency. NURSE-ON-CALL provides immediate, expert health advice from a registered nurse and is available 24 hours a day, 7 days a week.
- If first aid is administered for a minor injury or condition, Stevensville Primary School will notify parents/carers by sending a note home to parents/carers and/or a phone call.
- If first aid is administered for a serious injury or condition, or in an emergency situation, school staff will attempt to contact parents/carers or emergency contacts as soon as reasonably practicable.
- If staff providing first aid determine that an emergency response is not required but that medical advice is needed, school staff will ask parents/carers, or an emergency contact person, to collect the student and recommend that advice is sought from a medical practitioner.
- Whenever first aid treatment has been administered to a student Stevensville Primary School will:
  - record the incident on CASES21 and eduSafe Plus
  - If the first aid treatment is provided following a [recorded incident](#), the details are recorded through the eduSafe Plus *Incident* form. For all other presentations, the eduSafe Plus *Sick Bay* form is used.
  - if care was provided in response to a medical emergency or reportable incident, follow the Department's [Reporting and Managing School Incidents Policy](#), including reporting the incident to the Department's Incident Support and Operations Centre on 1800 126 126 where required to under that policy.

In accordance with Department of Education and Training policy, analgesics, including paracetamol and aspirin, will not be stored at school or provided as a standard first aid treatment. This is because they can mask signs of serious illness or injury. For further information refer to the Department's Policy and Advisory Library: [Medication](#)

## COMMUNICATION

This policy will be communicated to our school community in the following ways:

- Available publicly on our school's website
- Provided to the staff at induction and staff training and included on the google drive – School Policies
- Discussed at staff briefings/meetings as required
- Discussed at parent information nights/sessions
- Reminders in our school newsletter
- Hard copy available from school administration upon request
